Experience

ASTUTE Technologies
Bahawalpur, Pakistan
07/2023 - Present

Web Developer

A technology firm specializing in web development and design

- Designed & implemented new websites based on product requirements using React and Firebase
- Integrated user-interface elements developed by other developers
- Integrated various APIs
- Collaborated closely with teams of UI/UX designers, PMs, QAs, and other developers

CodeCrack
Bahawalpur, Pakistan
05/2023 - 07/2023

Frontend Intern

CodeCrack is a technology company specializing in web development with a focus on innovation and modern solutions.

- I helped create interactive UI components that provide a smooth and responsive design.
- Worked closely with the development team to implement scalable frontend solutions.
- Assisted in debugging and optimizing performance for improved user experience.

BlackByte
London, United Kingdom
09/2024 - 12/2024

Part-Time Web Developer (remote)

A London-based startup providing software solutions, including design, development, and marketing services.

Created a blogging website with a CMS backend for efficient content management.
Built the **company's official website** using **Next.js**, improving performance and SEO.
Worked closely with designers to improve user interface (UI), user experience (UX), and overall responsiveness.

Projects

ShipPacks
https://shippacks.com/

A logistics solution for seamless package delivery and tracking.

- This project utilizes Next.js, Firebase, and Tailwind CSS, allowing users to place and track orders in real time. Drivers can update order statuses via a mobile app, keeping users informed on their order progress.

Data AI
https://framerwebsite-blush.vercel.app/

An advanced analytics platform for AI-driven insights and visualization.

- This analytics platform utilizes advanced AI to provide insightful visualizations. Built with Next.js, Tailwind CSS, and Framer Motion, it features an intuitive dark-themed interface that enhances user engagement and facilitates smooth navigation of data-driven insights.

ChatTick Admin

https://chattickadmin.vercel.app/

A powerful admin panel for managing a SaaS-based chat application.

- This is the admin panel of a chat application, a SaaS product with end-to-end encryption for user privacy. Administrators can view statistics, add mobile app themes, and manage contests and gifts.

Education

The Islamia University of Bahawalpur
09/2021 - 06/2025

Bachelor of Science in Computer Science
